## *Weedville Family Car Makes The “Big Time”*

I was awarded the best in class and this award was special to me because instead of judges picking my car, it was the other 7 car owners who voted my car ‘Best in Class’.

After receiving the award, I went back to my spot and asked the person running the show if I could leave early because of the long drive home. He said yes but you have to promise me

you will bring her back for another show. I said I would, then my son Daniel helped me load it back on the trailer and we headed for home.

I bet Dad would have been proud of his car sitting in Beverly Hills at the Greystone Mansion Concourse d’Elegance and winning acclaim from many “old car buffs.”
